CLAIMS

[Claim(s)]

[Claim 1]A general formula [Formula 1]

Among [type, R¹ shows a hydrogen atom or a protective group, and R² A hydrogen atom, A protective group, an alkyl group, an alkenyl group, or a -C(=NR³) R⁴ group (among a formula, R³ shows a hydrogen atom or a protective group, and R⁴ shows a hydrogen atom, an alkyl group, or an amino group) is shown, and A shows the basis chosen from following (2) thru/or (12). Formula (2)

[Formula 2]

the inside of a formula, and R⁵ -- a hydrogen atom and a protective group -- it may be replaced -- an alkyl group. however, this substituent -- a hydroxyl group, a protected hydroxyl group, a carboxy group, and a protected carboxy group. A cyano group, an alkoxy group, an alkyl sulfonyl group, a -NHCOR⁶ group (among a formula) A -NR⁷R⁸ group which R⁶ shows a hydrogen atom or an alkyl group (among a formula) . R⁷ and R⁸ are the same or different, and a hydrogen atom, an alkyl group, or a protective group is shown. - A CONR^{7a}R^{8a} group (R^{7a} and R^{8a} show a hydrogen atom or an alkyl group among a formula), or a -OCONR^{7a}R^{8a} group

(among a formula) It is chosen from an above-mentioned thing and the meaning being shown,
or R^{7a} and R^{8a} are $-C(=NR^3)R^4$ groups
